

Cut & Gauge Resistant Conveyor Belt

Features

Application: Cut and Gauge resistant belt cover rubber has the performance of absorbing high energy impact, especially suitable for mine head break, second break. Material size can be 0 to 600mm.

Carcass: EP, Steel Cord, Kevlar

Classification

Grade	Tensile Strength (MPa)	Elongation at break (%)	Abrasion (mm ³)	Special Properties
I	20	550	140	For environment temperature above -15°C
II (M24+)	26	450	105	For low environment temperature no lower than -50°C

GRADE: DIN-X

GRADE: Impact resistant rubber
