Sidewall Bond Way:

- a. **Cold bonding:** It's easy to operate in local workshop, and convenient for transportation.
- b. **Hot vulcanizing:** Has longer lifetime, need be very careful in transportation.

Filter Press Fabrics (Filter Press Cloths):

- ※ **Material:** Polyester monofilament.
- ※ **Composition:** 100% Polyester.
- ※ **Use:** Filter press fabrics used for filter and filter press, paper mills dryer and conveying.
- ※ **Application:** It's widely used in sludge desiccation, paper pulp washing, coal washing, chemicals, dehydration of wine bran, vinegar bran dehydration and other industries.
